1. Einleitung

2006 hat der Medienwissenschaftler Ian W. Macdonald ein Forschungsnetzwerk gegründet, das später den Namen *Screenwriting Research Network* erhielt. Die Entstehung der Drehbuchforschung als eines international vernetzten Forschungsbereichs zählt man meist eben ab diesem Jahr, auch wenn es früher vereinzelt film-, literatur- und kulturwissenschaftliche Projekte gab, die das Drehbuch zum Forschungsgegenstand hatten. Denn erst ein konsequenter Austausch zwischen den Wissenschaftler*innen, Theoretiker*innen und Praktiker*innen des Drehbuchschreibens machte die methodischen und materialtechnischen Schwierigkeiten sichtbar, die die Forschung an Drehbüchern mit sich bringt. Eine der größten unter diesen Schwierigkeiten ist der Mangel an verfügbarem und systematisiertem Forschungsmaterial: Drehbücher wurden in vielen Ländern erst ab der zweiten Hälfte des 20. Jahrhunderts kontinuierlich archiviert und werden bis heute eher sporadisch veröffentlicht. Daher mag es besonders herausfordernd sein, eine Geschichte des Drehbuchs nachzuzeichnen; bei dieser Aufgabe möchte diese Bibliographie Hilfe ableisten.

Unter dem Begriff „Drehbuch“ verstehe ich alle Arten von Texten, die auf die realweltliche Situation der Filmproduktion Bezug nehmen und die in der Regel mit sprachlichen Mitteln das Medium Film simulieren (obwohl diese letztere intermediale Bezugnahme nur eine Konvention

der Gattung darstellt und in einigen experimentellen Drehbüchern eben als solche—als Konvention—ausgestellt wird) [1]. Das heißt, „outlines“ und „treatments“ sind ein ebenso wichtiger Teil der vorliegenden Bibliographie wie „shooting scripts“ und „continuities“. Insgesamt kennen die fünf in dieser Bibliographie repräsentierten Sprachen—Englisch, Deutsch, Französisch, Russisch und Italienisch—mehr als fünfzig historische und zeitgenössische Bezeichnungen für verschiedene Sorten von Drehbüchern. In der Stummfilmzeit wurden die jeweiligen Begriffe besonders einheitlich gebraucht; man hüte sich deswegen davor, aus den Titeln und Untertiteln der Drehbücher Schlüsse auf ihre Gattungszugehörigkeit zu ziehen—das berühmte Drehbuch von Carl Mayer und Hans Janowitz, *Das Cabinett des Dr. Calligari* (1995, München: Edition Text+ Kritik), trägt z. B. den Untertitel „Phantastischer Filmroman“.

Drehbuch ist gleichzeitig eine pragmatisch funktionale und eine literarische Gattung. Obwohl der literarische Eigenwert des Drehbuchs besonders seitens der Industrie bis heute umstritten bleibt, weisen Publikationen in Buchform sowie in literarischen Zeitschriften darauf hin, dass das Drehbuch bereits seit den 1920er Jahren am System der literarischen Gattungen teilhat. Nicht weniger als Roman oder Lyrik vermag die Gattung Drehbuch bestimmte soziokulturelle Funktionen zu erfüllen, indem sie, mit Wilhelm Voßkamp gesagt, gesellschaftliche Problemstellungen und -lösungen artikuliert und aufbewahrt [2]. Die Funktionalität des in literarischen Kontexten publizierten Drehbuchs ist somit eine doppelte: Zum einen besitzt es potentielle oder bereits realisierte Funktionen in der Filmproduktion, wie z. B. finanzielle und logistische Planung zu ermöglichen, als Leitfaden für Schauspieler, Kameraleute und andere Mitglieder der Filmcrew zu dienen und so weiter; zum anderen kann das publizierte Drehbuch, genauso wie auch andere literarische Gattungen, bestimmte soziokulturelle Funktionen erfüllen.

Von diesen zwei Funktionalitäten ist nur die Erstere, also die pragmatische Funktionalität im Kontext der Filmproduktion, für das Drehbuch als Gattung konstituierend. Das Drehbuch kann nämlich, wie zahlreiche Beispiele aus dieser Bibliographie belegen, gleichermaßen den epischen, lyrischen oder dramatischen Kommunikationsmodus realisieren; Erzählung im Drehbuch kann in unterschiedlichen Tempora (Präsens, Perfekt oder Präteritum), Personae (erste, zweite oder dritte) und Numeri (Singular oder Plural) erfolgen; Drehbücher können aber auch fast ohne Verben auskommen und in einem elliptischen Nominalstil geschrieben werden, wie dies beim deutschen Drehbuchautor Carl Mayer der Fall war. Deswegen ist die Gattung Drehbuch historisch im Sinne von Ludwig Wittgensteins Familienähnlichkeit zu beschreiben: Abgesehen von der potentiellen Funktion in der Filmproduktion weisen Drehbücher kein allgemeingültiges, gattungskonstitutives Merkmal auf, dafür jedoch unterschiedliche Mengen an Ähnlichkeiten zwischen einzelnen Texten.

Dem zugleich pragmatisch funktionalen und literarischen Wesen des Drehbuchs entsprechend sind mindestens zwei unterschiedliche, sich gegenseitig ergänzende Sichten auf die Geschichte des Drehbuchs möglich. Zum einen kann die Entwicklung von normativen Poetiken, die das Drehbuchschreiben seit je zu standardisieren versuchen, aber auch Experimente innerhalb der Gattung, als Folgen bestimmter Produktionsbedingungen in der jeweiligen Filmindustrie betrachtet werden. So lassen sich z. B. der Aufschwung der Publikationen, die das Drehbuch in den 1920er Jahren erlebte, sowie die große Zahl an experimentellen Drehbüchern aus der Zeit und an solchen, die durch literarische Autoren verfasst wurden, durch wirtschaftliche Faktoren erklären: Das Drehbuchschreiben zahlte sich wesentlich besser aus als andere literarische Tätigkeiten und war alleine schon aus diesem Grund für literarische Autoren attraktiv, wie dies u.a. Georg Kaiser, Bertolt Brecht, Antonin Artaud und Vladimir Mayakovsky in ihren Briefen bezeugen; gleichzeitig ließen die prekären Produktionsbedingungen der Nachkriegszeit nur eine sehr geringe Zahl an

Drehbüchern als Filme realisieren, und folglich landeten die Drehbuchexperimente der genannten sowie vieler anderer Autor*innen bei literarischen Verlagen. Zugleich aber korrelierte das Drehbuch als eine neue, ausgeprägt moderne Gattung mit den Projekten der literarischen Erneuerung, die die historischen Avantgarden entwickelten: Visualisierungsprozesse, die das Schreiben und Lesen des Drehbuch veranlassen, koppelten an das spätmoderne Interesse am Psychologischen und insbesondere an den Funktionsmechanismen der Imagination an; die rhetorische Schlichtheit vieler Drehbücher stand im Einklang mit der Objektivierung der Schreibweisen, die einige Avantgarde-Strömungen anstrebten; schließlich wies die Position des Drehbuchs „zwischen“ der sprachlichen Kommunikation und dem neuen Medium Film auf das Potential des Drehbuchs in den literarischen Auseinandersetzungen mit der Sprachskepsis bzw. -krise hin. Die vorliegende Bibliographie trägt beiden Sichtweisen Rechnung: Sowohl der Herangehensweise an das Drehbuch und seine Geschichte als bedingt durch die jeweilige wirtschaftspolitische Lage, insbesondere innerhalb der Filmindustrie, als auch der Perspektive auf das Drehbuch als historisch bestimmt durch, und zugleich bestimmend für, das literarische Gattungssystem.

Primärquellen in der folgenden Bibliographie umfassen ausschließlich Drehbücher zu Stummfilmen, die *vollständig* in Buchform oder in der Presse veröffentlicht wurden; Drehbuch-Fragmente können kaum als ästhetisch autonome Artefakte betrachtet werden und wurden daher aus der Bibliographie ausgeschlossen. Zur Auseinandersetzung mit Drehbüchern, die nie veröffentlicht wurden und nur in Archiven zugänglich sind, empfiehlt sich das *Screenwriting Archives and Resources Project (SARP)* – eine Initiative des *Screenwriting Research Network* [3].

Die Liste der Primärquellen ist nach sprachlich-kulturellen Räumen gegliedert: Frankreich, Deutschland und Österreich, Italien, Russland und die Sowjetunion, die USA und UK. Die Identität der aufgelisteten Drehbüchern in französischer, deutscher, russischer und italienischer Sprache, wurde von der Autorin verifiziert. Wo ein Film als Realisation des Drehbuchs angegeben ist, so heißt das, dass das jeweilige Drehbuch im Sinne seiner pragmatischen Funktion bei der Filmproduktion eingesetzt wurde. So wird z. B. der Tonfilm *Donogoo Tonka* (Germany, 1936, dir. Reinhold Schünzel, prod. UFA) *nicht* als Realisierung des Drehbuchs *Donogoo-Tonka* (1920) von Jules Romains angegeben, weil dieser Film nicht auf dem Drehbuch, sondern auf dem gleichnamigen Theaterstück von Romains (1931, erstaufgeführt 1930) basiert.

Auf die Bibliographie der vollständig veröffentlichten Drehbüchern zum Stummfilm folgt eine Liste der Sekundärquellen zur Geschichte und Theorie des Drehbuchs in der Stummfilmzeit. Handbücher und Ratgeber zum Drehbuchschreiben aus der Stummfilmzeit, denen man gelegentlich wertvolle Informationen über historische Schreibkonventionen [4] entnehmen kann, bilden den letzten Teil der Bibliographie; die Grundlage für diesen letzten Teil habe ich der Dissertation von Stephen C. Curran (2015. “Early Screenwriting Teachers 1910–1922: Origins, Contribution and Legacy,” Brunel University) zu verdanken.

Anmerkungen:

[1] Zur Systematik der intermedialen Bezugnahmen vgl. Irina O. Rajewskys grundlegende Arbeit *Intermedialität* (Tübingen: Francke, 2002, insb. zum Begriff „Simulierung“ S. 94–103); dass die sprachliche Bezugnahme des Drehbuchs auf das Medium Film eben „nur“ eine Konvention ist, dafür argumentiere ich ebenfalls in Anlehnung an Rajewskys These zur doppelten intermedialen Relation zwischen dem Dramentext und Theater (vgl. ihre Habilitationsschrift *Medialität–Transmedialität–Narration. Perspektiven einer transgenerischen und transmedialen Narratologie*; Drucklegung in Vorbereitung).

[4] In der englischsprachigen Drehbuchforschung hat sich für die Gesamtheit der Schreibkonventionen der Ausdruck “screenwriting orthodoxy” etabliert, der 2013 von Ian W. MacDonald in *Screenwriting Poetics and the Screen Idea* (Basingstoke, UK: Palgrave Macmillan, S. 10) in Anlehnung an den “Doxa”-Begriff von Pierre Bourdieu eingeführt wurde.
